# Mateo Aguilar

Full Stack Web Developer

## WHO AM I

Self-taught web developer dedicated and detail oriented, in love with bringing life to websites. I always try to be ahead of the circumstances by constantly learning. I would like to be part of a team in which I can develop my career as a developer.

## EDUCATION

2020/2021   Web Development courses  
*freeCodeCamp*

## CERTIFICATES

2021   Legacy Full Stack Certification  
*freeCodeCamp*  
2019   CLE – English Language Certificate  
*Ministry of Education of Argentina*

## EXPERIENCE

2020/2021   freeCodeCamp's projects  
Built 25 different apps within a year, with which I got my certifications. You can find some of them in my portfolio.  
2022   Proyectos propios  
09/03   *Ecommerce Website*  
Single Page Application, imitation of an ecommerce website with some of their common functionalities.  
27/03   *Message Board Anónimo*  
MERN stack Single Page Application. Imitation of social media like Reddit, with the capacity to create and delete threads and replies.  
01/05   *Sunset Sunrise*  
App that displays in a graph the amount of light the user's locality and other places receive throughout a whole year.
